Eighty-five years old and still getting A's.

After eighty-five years, Old Republic National Title Insurance Company is still at the head of the class. Our affiliate and underwriter has received the title industry's only A+ rating from Standard & Poor's for claims paying ability, the highest to date. This A+ rating indicates secure claims paying ability and high financial stability, and provides the real estate industry with proof of the quality, dependable security offered by Old Republic Title.

Old Republic Title Company of Indiana has been providing the utmost in service and security for real estate transactions throughout Marion and Hamilton Counties for over ten years.

When it comes to hard work, dedication and making the grade, we guess some habits are just hard to break.

If you have any questions about Old Republic Title's claims-paying-ability ratings, give one of our offices a call.

CORRECTION REQUEST

This directory has been published as a county ownership reference guide. The data contained herein has been compiled from official city, state, and county public records. Constant property sales and transfers make it impossible for us to guarantee 100% accuracy: errors and omissions are inevitable. If you should notice an error in the Index of Owners or on a map, we would appreciate it if you would mail the correction to us on the coupon provided. We convey our sincere thanks to our county officials for their participation. Your county plat directory has been made possible with their cooperation and support.

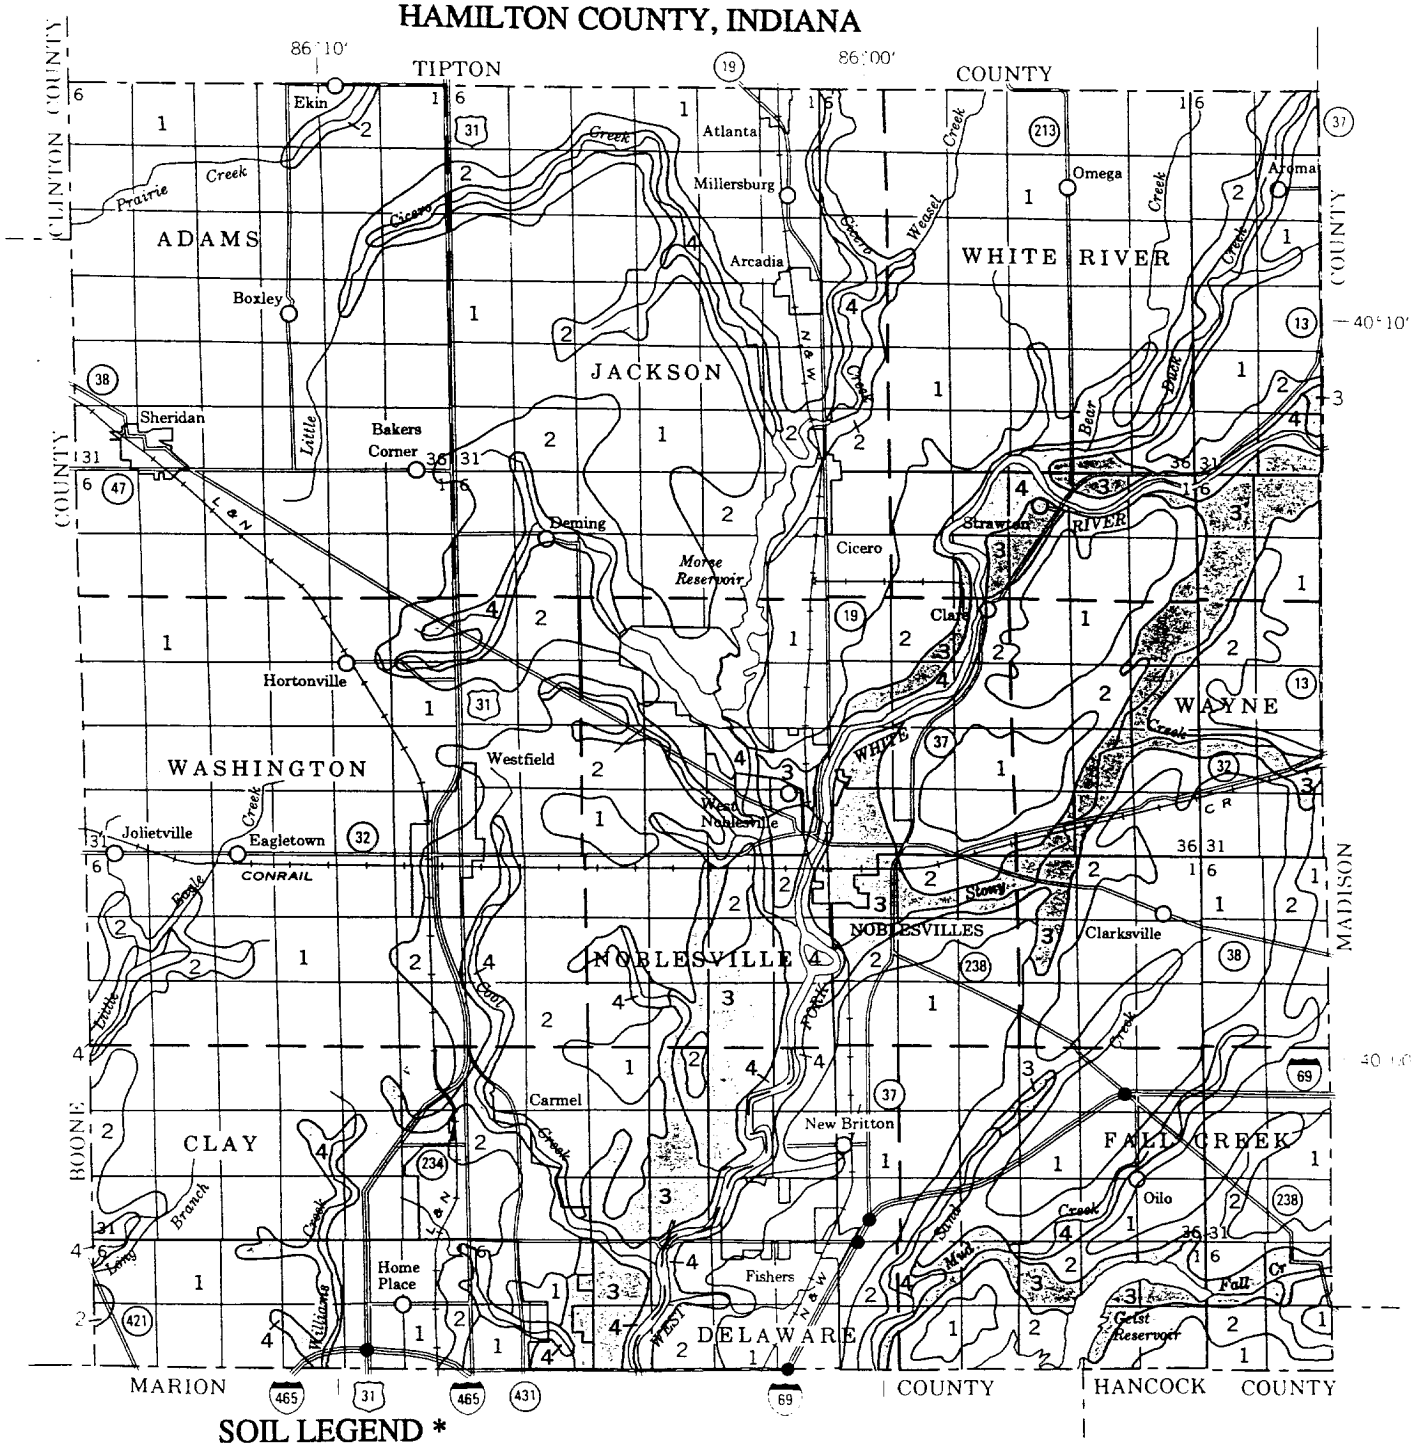
GENERAL SOIL MAP

HAMILTON COUNTY, INDIANA



SOIL LEGEND *

1 Crosby-Brookston: Deep, nearly level, somewhat poorly drained and very poorly drained, medium textured and moderately fine textured soils that formed in a thin mantle of loess and the underlying glacial till on unlands.

2 Miami-Crosby: Deep, nearly level to strongly sloping, well drained and somewhat poorly drained, medium textured soils that formed in a thin mantle of loess and the underlying glacial till on uplands.

3 Ockley-Westland-Fox: Deep and moderately deep over sand and gravel, nearly level to strongly sloping, well drained and very poorly drained, medium textured and moderatley fine textured soils that formed in outwash on terraces.

4 Shoals-Genesee: Deep, nearly level, somewhat poorly drained and well drained, medium textured soils that formed in alluvium on flood plains.

* Terms for texture refer to the surface layer of the major soils.

Each area outlined on this map consists of more than one kind of soil. The map is thus meant for general planning rather than a basis for decisions on the use of specific tracts.

FARMER'S LAST WILL

I Leave:

To my wife .....My overdraft at the bank. Maybe she can explain it.

To my son.....Equity on my car. Now he'll have to go to work to meet the payments.

To my banker .....My soul. He has the mortgage on it anyway.

To my neighbor.....My clown suit. He'll need it if he continues to farm as he has in the past.

To PCA .....My unpaid bills. They took some real chances on me and I want to do something for them.

To ASCS .....My grain bin. I was planning to let them take it next year anyway

To the farm adviser .....50 bushels of corn to see if he can hit the high market. I never did.

To the junk man .....All my machinery. He's had his eyes on it for years.

To my undertaker .....A special request. I want six implement and fertilizer dealers for my pallbearers. They are used to carrying me.

To the weatherman.....Rain, sleet, and snow for the funeral, please. No sense in having good weather now.

To the grave digger .....Don't bother. The hole I am in should be big enough.

To the monument maker..Set up a jig for the epitaph, "Here lies a farmer who has now properly assumed all of his obligations."

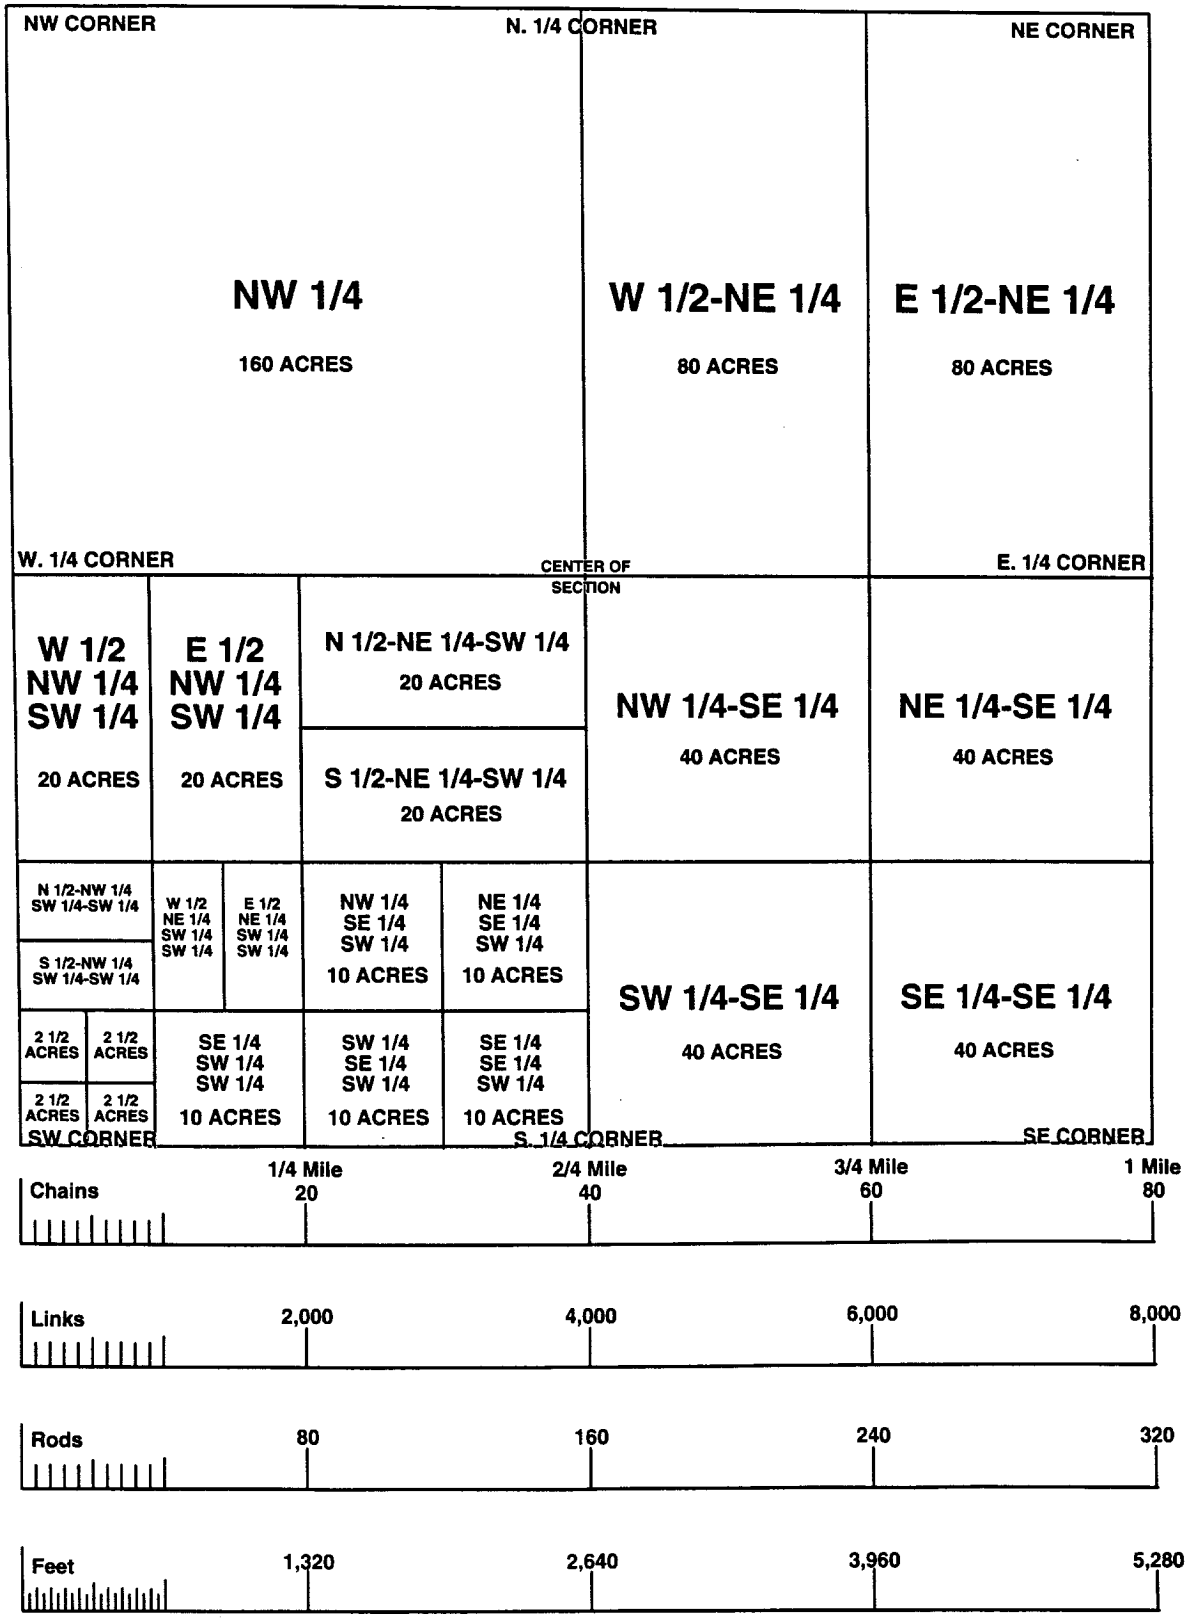
A SECTION OF LAND --- 640 ACRES

Chains Rods Feet
Quarter, Sections, and Subdivisions Thereof



Always on rectangular survey descriptions, work from end of description back to the beginning. Example:

1	2	3	4	5&6	7
Town & Range	Sec. Number	1/4 section	1/4 sec. of 1/4 sec. thence into halves or quarters to beginning		

7	6	5	4	3	2	1
South 165 feet of	S 1/8	S 1/8	SE 1/4	NE 1/4	Section 8	Town 7 North, Range 7 East
5 Acres	10 Acres	20 Acres	40 Acres	160 Acres	640 Acres	

The preferred order in locating quarter sections is counter-clockwise, North East quarter, North West quarter, South West quarter, and South East quarter. If arts of the quarter sections are to be described, the same order should be observed.

1 mile	=	63,360	8,000	5,280	1,760	320	80	1

AREA OF MEASURE

144 square inches = 1 square foot
9 square feet = 1 square yard
30.25 square yards = 1 square rod
1 square rod = 272.25 square feet
160 square rods = 1 acre
1 acre = 4,480 square yards

1 acre = 43,560 feet
640 acres = 1 square mile
1 mile square = 1 section
6 miles square = 1 township
36 sections = 36 square miles

GUNTER'S OR SURVEYOR'S CHAIN MEASURE

7.92 inches = 1 link
100 links = 1 chain
4 rods = 66 feet or 1 chain
80 chains = 1 statute mile

Conversion of Chains to Rods to Feet

Correction Request!

This directory has been published as a county ownership reference guide. The data contained herein has been compiled from official city, state, and county public records. Constant property sales and transfers make it impossible for us to guarantee 100% accuracy; errors and omissions are inevitable. If you should notice an error in the Index of Owners or on a map, we would appreciate it if you would mail the correction to us on the coupon provided.

We convey our sincere thanks to our county officials for their participation. Your county plat directory has been made possible with their cooperation and support
