To: Hamilton County Drainage Board

Re: William Shyrock Drain, Overdorf Road Extension

Attached is a drain map for the extension of the William Shyrock Drain. This proposed drain is located in White River Township.

I have made a personal inspection of the land described below. Upon doing so, I believe the drain is practicable, will improve the public health, benefit a public highway, be of public utility and that that the costs, damages and expenses of the proposed drain will probably be less than the benefits accruing to the owners of land likely to be benefited.

This extension shall consist of that portion of the Shyrock Drain which lies within the right of way for Overdorf Road located approximately 1,260 feet south of 226th Street at Hamilton County Bridge #115. The total length of the drain is 130 feet.

The nature of maintenance work required is as follows:

- Bank erosion protection and/seeding as might be required;
- Removal of debris and/or blockages from the drain;
- Removal of Beaver Dams;
- Any other repairs necessary to restore proper flow to the open ditch within the right of way.

The frequency with which maintenance work should be performed is annually as required by the condition of the drain.

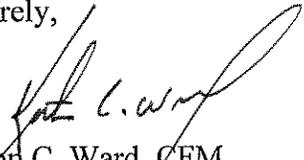

The easements for the drain should be set at 75 feet from top of bank as set out in IC 36-9-27-33. Additional drainage easement will be added to the following tracts:

<u>Parcel</u>	<u>Owner</u>
Overdorf Road Right of Way	Hamilton County

Because this is existing county right of way, I do not believe that any damages will result to the property owner.

I recommend that the Board set a hearing for this proposal for May 22, 2017.

Sincerely,

Kenton C. Ward, CFM
Hamilton County Surveyor

KCW/pll

William Shyroch #92

Overdorf Road Extension

Hearing: 05/22/17

*No cost for extension. Drain to be accepted in place without reconstruction costs or assessment.

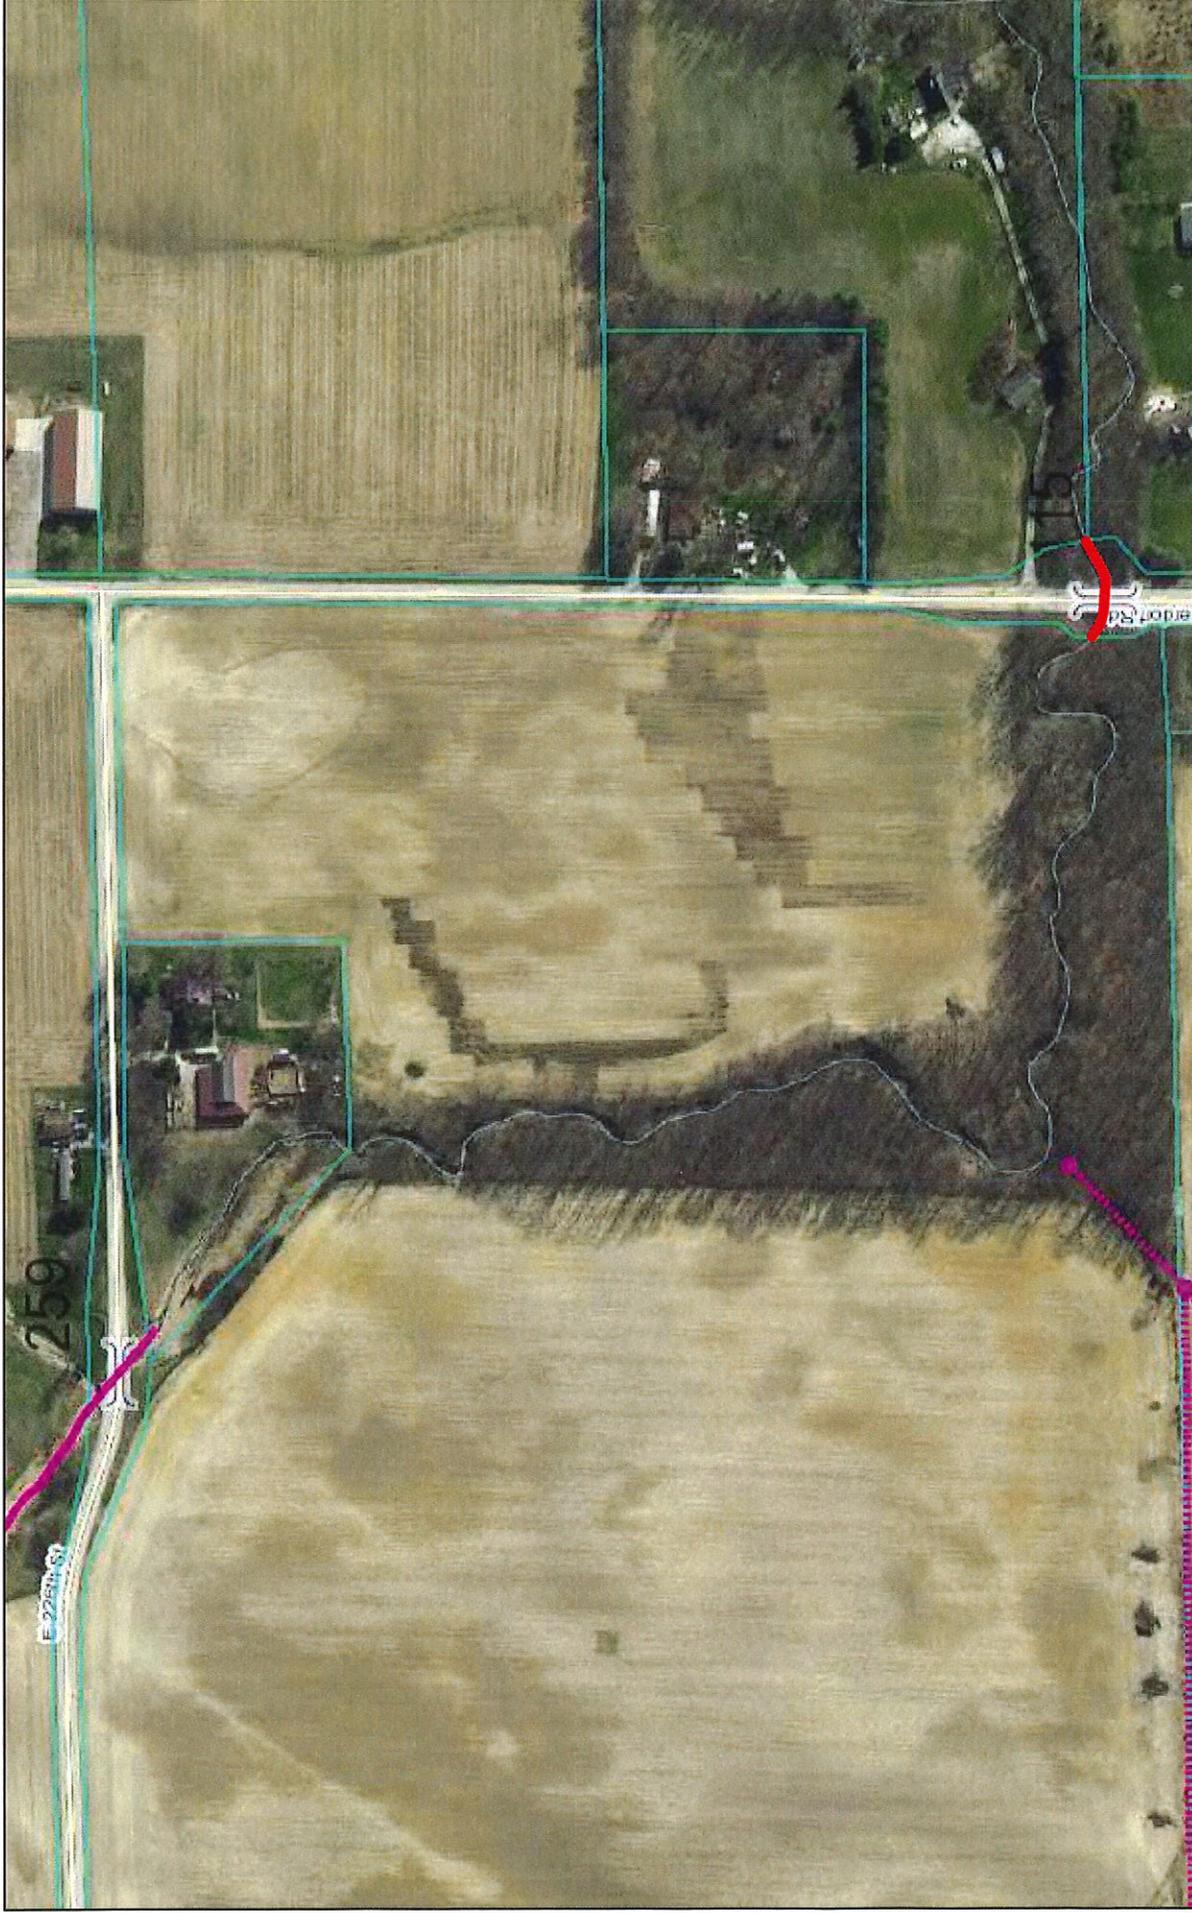

* A maintenance fund will not be established at this time.

Easement to be set at 75' from top of bank as set out in IC 36-9-27-33.

Adding 130' of ditch to total length.
