To: Hamilton County Drainage Board

Re: Sly Run Drain, West Harbour/Mercho-Delullo Assessment Area

Attached is drainage shed map and schedule of assessments for maintenance for a portion of the Sly Run Drain. The drainage area to be assessed is upstream of Mill Creek Road and downstream of Little Chicago Road. This portion of the drain is located in Noblesville Township.

This portion of the Sly Run Drain consists of the West Harbour Extension, State Road 38 and Little Chicago Road Extension, Mercho/Delullo Extension, Mill Grove/Morse Pointe Extension and the Mill Grove Section 1 Offsite Arm.

The West Harbour Extension was made an arm to the Sly Run Drain per my report dated December 4, 2009 and approved by the Board at hearing on March 22, 2010. (See Hamilton County Drainage Board Minutes Book 12, pages 447-448).

The State Road 38 and Little Chicago Road Extension became an arm to the Sly Run Drain per my report dated January 8, 2010 and approved by the Board at hearing on February 22, 2010. (See Hamilton County Drainage Board Minutes Book 12, pages 401-402).

The Mercho/Delullo Extension was made an arm to the Sly Run Drain per my report dated May 13, 2011 and approved by the Board at hearing on July 25, 2011. (See Hamilton County Drainage Board Minutes Book 13, Pages 492-493).

The Mill Grove/Morse Pointe Extension became an arm to the Sly Run Drain per my report to the Board dated September 3, 2009 and approved at hearing by the Board on November 23, 2009. (See Hamilton County Drainage Board Minutes Book 12, pages 332-334).

The Mill Grove Section 1 Offsite Arm became an arm to the Sly Run Drain per my report to the Board dated February 19, 2010 and approved by the Board at hearing on May 24, 2010. (See Hamilton County Drainage Board Minutes Book 12, pages 550-552).

I have reviewed the drain map and believe as set out in IC 36-9-27-69(b), that all tracts within the drainage shed of the Sly Run Drain will benefit. The current maintenance assessment rates were set by the Board per my report dated October 8, 2001 and approved at hearing on November 26, 2001 (see Hamilton County Drainage Board Minutes Book 6, pages 212-214). Those rates are as follows:

1. Maintenance assessment for roads and streets be set at \$10.00 per acre.
2. Maintenance assessment for agricultural tracts be set at \$2.00 per acre with a \$15.00 minimum.
3. Maintenance assessment for non-platted residential tracts be set at \$2.00 per acre with a \$15.00 minimum.
4. Maintenance assessment for commercial, institutional and multi-family residential tracts to be set at \$10.00 per acre with a \$75.00 minimum.
5. Maintenance assessments for platted lots in subdivisions whose drainage systems will not be part of the regulated drain shall be set at \$35.00 per lot/minimum. Common areas within the non-regulated drain subdivision shall be assessed at \$5.00 per acre with a \$35.00 minimum.
6. Maintenance assessment for platted lots within subdivisions whose drainage system will be part of the regulated drain shall be set at \$65.00 per lot/minimum. Common areas within the regulated drain subdivision shall be set at \$10.00 per acre with a \$65.00 minimum.

The annual maintenance collection for this portion of the Sly Run Drain will be \$6,069.34. Collections for this proposed assessment will begin in May, 2013.

The nature of maintenance work required is as follows:

1. Clearing of trees and brush on the existing open drain as needed to improve flow;
2. Creation and re-excavation of silt basins;
3. Install and maintain surface water structures as might be required;
4. Bank erosion protection and/or seeding as might be required;
5. Repair of private tile outlet ends as might be required;
6. Repair of regulated drain tile outlets;
7. Removal of beaver dams;

8. Removal of debris and/or blockage from regulated open ditch;
9. Spraying for vegetation control;
10. Mowing filter strips;
11. Any other repairs deemed to be applicable and necessary by the Surveyor to restore the drain to its original intended use and condition.

The frequency with which maintenance work should be performed is annually as required by the original condition of the drain.

At this time the drain does not have a Watershed Management Plan. I recommend that the Board engage an engineer to develop a Watershed Master Plan for this drain in 2013.

This drain has been classified as an urban drain under IC 36-9-27-67 per my report dated October 8, 2008 which was approved by the Board at hearing on November 24, 2008 (see Hamilton County Drainage Board Minutes Book 11, pages 396-399).

Sly Run has been identified in the NPDES Phase II General Permit Application, Storm Water Quality Management Plan Part C: Program Implementation Report, page 4, as an MS4 area receiving stream.

Sly Run is listed in the NPDES Phase II General Permit Application Storm Water Quality Management Plan Part B: Baseline Characterization Report on the following pages:

Page 3 as an MS4 area receiving stream

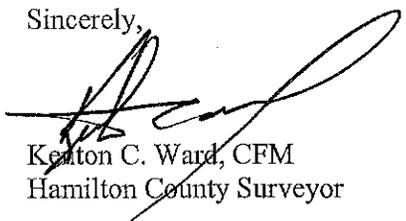

Page 7 with Cicero Creek as No. 0512021080120 Watershed within the MS4 area with drainage size of 7,225.30 acres.

Page 16 as being in the IDEM 305(b) Report as being an impaired water body due to E.Coli.

This drain is not listed on the 2010 303(d) list of impaired waters for Indiana.

I recommend that the Board set a hearing for this proposed maintenance for October 22, 2012.

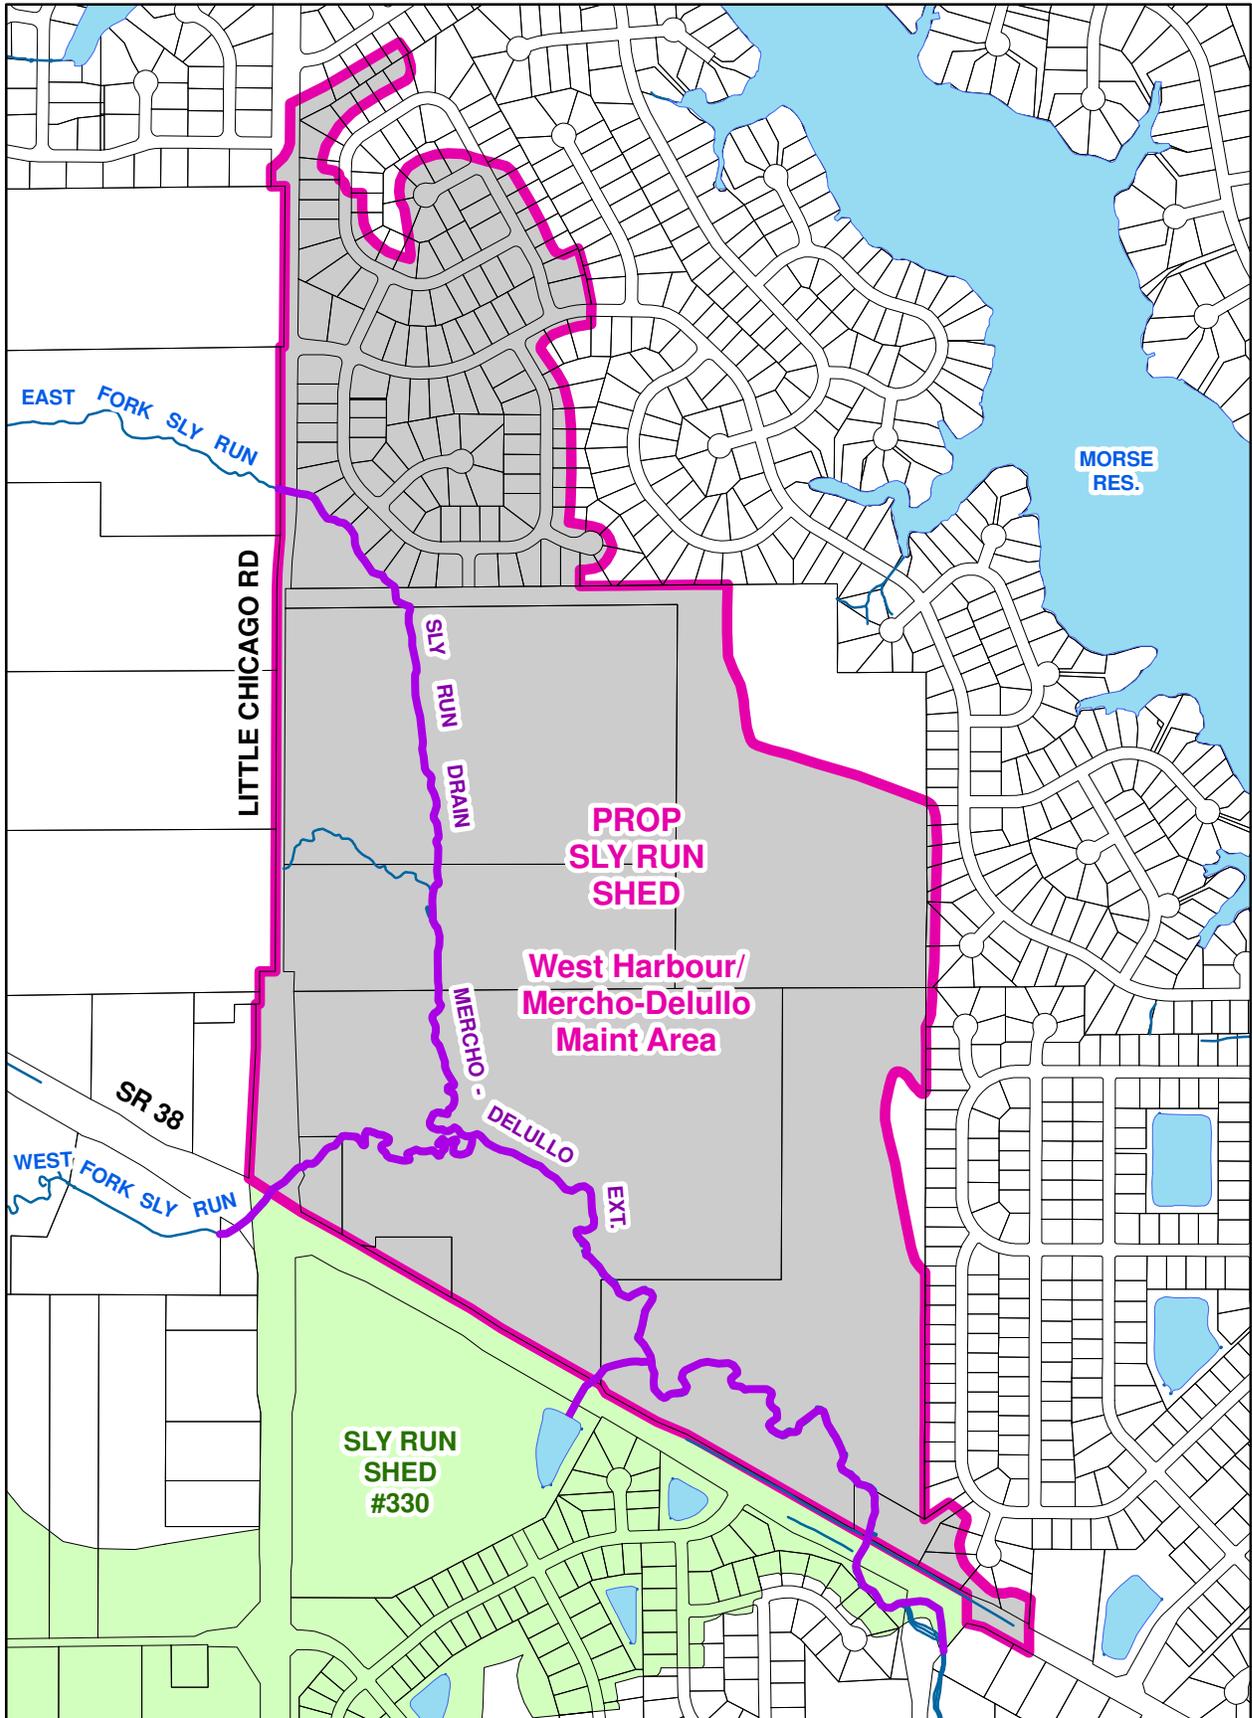

Sincerely,

Kenton C. Ward, CFM
Hamilton County Surveyor
