

Suorin Air Ultra

- The Suorin Air Ultra Portable System is a robust and versatile card-style ultra portable pod system.
- The Suorin Air Ultra comes with these parts:
 - The Suorin Air (Battery)
 - Suorin Cartridge
 - USB cable to charge the device
- It has been said this is the “Best Vape” on the market.
- The Suorin can hold up to 2 ml of e-liquid.
- The vape is marketed as an ultra portable system that is perfect for users looking for a sleek, covert, all-day vaping device!
- A 2 mL replaceable cartridge is attached that can be refilled via a seal plug located at the bottom of the reservoir.
- Cost of the “start up kit” can run between \$29.00 and \$34.99
- Suorin can be bought on-line.
- Fits perfectly in your pocket.
- Suorin looks like a cell phone or the battery to charge a cell phone.
- The device can be hooked up to a computer to recharge.
- The Suorin Air does not use “normal” e-juice. The system has to use a product called SaltNic.
- No buttons and is automatically activated when you” inhale.”
- SaltNic is a type of processed nicotine used in vape juice.
- Many vapers find nicotine salt more enjoyable than classic” freebase” nicotine.
- The SaltNic comes in many flavors.
- The Li-ion cells which is the battery, may catch on fire.
