To: Hamilton County Drainage Board

Re: Little Eagle Creek Drain, Eagletown Road to Casey Road Arm

Attached is a drain map, drainage shed map and schedule of assessments for maintenance for a portion of the Little Eagle Creek Drain. This portion of the drain is located in Washington Township from Casey Road to Eagletown Road.

This portion of the Little Eagle Creek Drain consists of the Little Eagle Creek Drain Casey Road Extension, 186th Street Extension, Eagletown Extension, and Eagletown Road Extension. The Little Eagle Creek Drain, Casey Road Extension became regulated drain, per my report dated June 1, 2011 and approved by the Board at hearing on July 25, 2011. (See Hamilton County Drainage Board Minutes Book 13, Pages 487-489). The Little Eagle Creek Drain, 186th Street Extension became regulated drain, per my report dated February 22, 2010 and approved by the Board at hearing on May 24, 2010. (See Hamilton County Drainage Board Minutes Book 12, Pages 554-555). The Little Eagle Creek Drain, Eagletown Extension became regulated drain, per my report dated May 3, 2007 and approved by the Board at hearing on June 25, 2007. (See Hamilton County Drainage Board Minutes Book 10, Pages 327-329). The Little Eagle Creek Drain, Eagletown Road Extension became regulated drain, per my report dated February 22, 2010 and approved by the Board at hearing on April 26, 2010. (See Hamilton County Drainage Board Minutes Book 12, Pages 489-490). The 4 arms of this drain listed above are from the west right of way line of Casey Road to the west right of way line of Eagletown Road. This consists of 9,433 feet of open ditch.

The office has had three (3) complaints on this segment of the drain since 2007. Those are as follows:

<u>DATE</u>	<u>APPLICANT</u>	<u>LOCATION</u>	<u>PROBLEM</u>
July 24, 2009	Carl Roudebush	17830 Casey Rd.	Debris/Trees in Ditch
June 14, 2010	Carl Roudebush	17830 Casey Rd.	Beaver Dam
April 13, 2011	Nancy Beery	17909 Eagletown Rd.	Debris/Trees in Ditch

I recommend that this portion of the Little Eagle Creek Drain be placed on maintenance. The open ditch portion of this drain upstream of this was placed on maintenance in 2009, per my report for the Little Eagle Creek Drain, dated July 6, 2009 and approved by the Board at hearing on August 24, 2009 (See Hamilton County Drainage Board Minutes Book 12, Page 195). Also, the Cove Horney, Alva Osborn, George Coverdale, Stephens & Clark, John Stewart, and Washington Township Drains were all on maintenance and have been combined into the Little Eagle Creek Drain.

The nature of maintenance work required is as follows:

1. Clearing of trees and brush on the existing open drain as needed to improve flow;
2. Creation and re-excavation of silt basins;
3. Surface water structure as might be required;
4. Bank erosion protection and/or seeding as might be required;
5. Repair of private tile outlet ends as might be required;
6. Repair of regulated drain tile outlets;
7. Removal of beaver dams;
8. Removal of debris and/or blockage from regulated open ditch;
9. Spraying for vegetation control;
10. Mowing filter strips;
11. Any other repairs deemed to be applicable and necessary by the Surveyor to restore the drain to its original intended use and condition.

The frequency with which maintenance work should be performed is annually as required by the original condition of the drain.

I have reviewed the plans and drain map and believe, as set out in IC 36-9-27-69(b) (1) that all tracts within the drainage shed of the Little Eagle Creek Drain will benefit. The following maintenance assessments have been adopted by the Board:

1. Maintenance assessment for roads and streets be set at \$10.00 per acre.
2. Maintenance assessment for agricultural tracts be set at \$2.00 per acre with a \$15.00 minimum.
3. Maintenance assessment for non-platted residential tracts be set at \$2.00 per acre with a \$15.00 minimum.
4. Maintenance assessment for commercial, institutional and multi-family residential tracts to be set at \$10.00 per acre with a \$75.00 minimum.

5. Maintenance assessment for platted lots in subdivisions whose drainage systems will not be part of the regulated drain (those systems maintained by the City of Westfield) shall be set at \$35.00 per lot - \$35.00 minimum. Commons areas within subdivisions whose drainage systems will not be part of the regulated drain (those systems maintained by the City of Westfield) shall be set at \$5.00 per acre with a \$35.00 minimum.
6. Maintenance assessment for platted lots within subdivisions whose drainage system will be part of the regulated drain shall be set at \$10.00 per acre with a \$65.00 minimum. Common areas within regulated drain subdivisions shall be set at \$10.00 per acre with a \$65.00 minimum.

The annual maintenance collection for this portion of the Little Eagle Creek Drainage Shed will be \$3,834.54. Collections for the proposed assessment will begin in May 2013.

The above rates were established for the Little Eagle Creek Drain per my report dated January 6, 2006. Hearing for this report was heard on September 25, 2006, at which time the Board approved the rates of assessment (See Hamilton County Drainage Board Minutes Book 9, Pages 450 to 452).

This drain has been classified as an urban drain under IC 36-9-27-67 per my report dated January 6, 2006.

Little Eagle Creek has been identified in the NPDES Phase II General Permit Application, Storm Water Quality Management Plan Part C: Program Implementation Report, page 5, as a MS4 area receiving stream.

Little Eagle Creek is listed in the NPDES Phase II General Permit Application Storm Water Quality Management Plan Part B: Baseline Characterization Report on the following pages:

Page 4 as an MS4 Area Receiving Stream

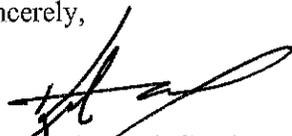

Page 7 as #051202011200600 Watershed within the MS4 Area

This drain is listed on the 2008 303(d) list of impaired waters for Indiana. The parameter of concern is E.Coli.

Currently the open ditch is heavily overgrown and is in need of clearing. The drain is susceptible to jams caused by debris which causes backwater and localized flooding. It is possible for large woody debris to collect on road crossings. This creates a threat to the bridge structure and can redirect flow causing erosion. This drain has had a large beaver population.

I recommend that the Board set a hearing for this proposed maintenance for June 25, 2012.

Sincerely,

Kenton C. Ward, CFM
Hamilton County Surveyor
