Re: Thistlethwaite Drain, Rates & Collection Period

At the January 22, 2001 Drainage Board meeting, the Board approved future commercial rates for parcels north of S.R. 47 & within the Town of Sheridan city limits south of S.R. 47 to be set at $10.00 per acre with a $50.00 minimum. The rates for the parcels south of S.R. 47 were increased to $10.00 per acre with a $75.00 minimum at the January 23, 2006 Drainage Board meeting. At this time I recommend that the commercial parcels north of S.R. 47 & within the Town of Sheridan city limits south of S.R. 47 be assessed at $10.00 per acre with a $75.00 minimum so all commercial parcels will be assessed the same rate. There are 52 parcels that need changed to the revised rate at this time.

At the January 23, 2005 Drainage Board meeting, rates for Regulated Subdivisions and Un-Regulated Subdivisions were established for parcels south of S.R. 47. They were set at the standard $5.00 per acre with a $35.00 minimum for Un-Regulated Subdivisions and $10.00 per acre with a $65.00 minimum for Regulated Subdivisions. At this time I recommend that the same rates be established for the township parcels north of S.R. 47 so that the entire drainage shed is assessed the same. There are 32 parcels in Adams Township north of S.R. 47 that are currently assessed as Residential/Ag that could be affected by these rates in the future if platted or land use changes occur. Platted parcels within the Town of Sheridan will continue to be assessed at the current rate except for the parcels changed to commercial properties.

With the above assessment rate changes the annual assessment will increase from $28,806.22 to $31,539.02 for the entire drain. I further recommend to the Board that the drain maintenance assessment collections be extended from four (4) time the annual collections to eight (8) time the annual collections as allowed in IC 36-9-27-43.

I recommend the Board set a hearing for September 24th, 2018 to consider these changes.

Thistlethwaite Drain #296

North of SR 47 & within Town limits rate corrections; now entire shed will have same rates.

*The collection period will be increased (from 4 to 8 times) to collect annual assessments until the balance of the drains fund equals eight (8) times its annual assessment.
