TO: Hamilton County Drainage Board

Re: Long Branch Drain, J.W. Brendle Drain Arm

Upon Review of the drainage sheds I believe that the J.W. Brendle Drain #77 should be combined with the Long Branch Drain #331. I recommend this action as the Long Branch Drain is the downstream portion of the J.W. Brendle Drain. This will combine the two drains into one larger drainage area, which could not be done until the gap was closed between the two drains with the development of Abney Glen. These two drains are the same main stream and need to be combined to provide the most cost effective maintenance possible.

The Long Branch Drain in Clay Township was placed on a maintenance program when Long Branch Estates was developed. Surveyor's report for the Long Branch Drain is dated December 20, 2001, and approved by the Board at a hearing on January 28, 2002 (Hamilton County Drainage Board Minutes Book 6, Pages 252 to 253). At present the Long Branch Drain maintenance assessments affects 256.85 acres and 349 lots. The current rate of assessment for the Long Branch Drain is $10.00 per acre for common area, $65.00 minimum, $65.00 per platted lot, and commercial is $10.00 per acre, with a $75.00 minimum. The roadways are assessed at $10.00 per acre. These rates collect $27,122.90 annually and the current balance in the maintenance fund is $122,332.73. There are no outstanding work orders for the drain at this time.

The J.W. Brendle Drain in Clay Township was placed on a maintenance program on December 18, 1972. The Surveyor's report for the J.W. Brendle Drain was present to the Board on August 21, 1972 (Drainage Board Minutes Book 1, Page 88), a hearing was held on November 20, 1972 (Drainage Board Minutes Book 1, Page 91), and the certificates of assessment were signed on December 18, 1972 ((Drainage Board Minutes Book 1, Page 92). At present the J.W. Brendle Drain maintenance assessment affects 1119.86 acres and 1308 lots. The rate of assessment for the drain was set at $1.00 per acre with a $15.00 minimum for agricultural tracks and non-platted residential tracts, $5.00 per acre with a $35.00 minimum for un-regulated subdivisions, $10.00 per acre with a $65.00 minimum for regulated subdivision, $10.00 per acre with a $75.00 minimum for commercial lots and $10.00 per acre with a $65.00 minimum for roads. These rates collect $90,635.08 annually and the current balance in the maintenance fund is $267,168.50. There are three (3) outstanding work orders for the drain at this time.

The rates for the Long Branch Drain should be set as follows:

1. Maintenance assessment for roads and streets be set at $10.00 per acre.

2. Maintenance assessment for agricultural tracts be set at $2.00 per acre with a $15.00 minimum.

3. Maintenance assessment for non-platted residential tracts be set at $2.00 per acre with a $15.00 minimum.

4. Maintenance assessment for commercial, institutional and multi-family residential tracts be set at $10.00 per acre with a $75.00 minimum.

5. Maintenance assessment for platted lots in subdivisions whose drainage systems will not be part of the regulated drain (those systems maintained by the City of Carmel) shall be set at $35.00 per lot/minimum. Common areas within non-regulated drain subdivisions shall be assessed at $5.00 per acre with a $35.00 minimum.

6. Maintenance assessment for platted lots within subdivisions whose drainage system will be part of the regulated drain shall be set at $65.00 per lot/minimum. Common areas within the regulated drain subdivisions shall be set at $10.00 per acre with a $65.00 minimum.

Except for the per acre rate for agricultural and non-platted residential tracts, the tracts in the J.W. Brendle watershed are now assessed to the same rate designations as above and should keep the same assessment rate as set out in paragraphs 1 and 4 through 6 above. The tracts currently in the Long Branch watershed should continue to be assessed as the land use fits into paragraphs 1, 4 and 6 above. This will result in no increased assessment for the current Long Branch parcel owners.

The total annual assessment for this Long Branch Drain will be $118,081.46

Since these two drains are the same main drain, the current balance of the J.W. Brendle Drain shall be combined with the Long Branch Drain and these funds expended for needed maintenance in the entire Long Branch Drainage Area. No further maintenance collections for the J.W. Brendle Drain fund shall be made beginning in 2012 other than any delinquent assessments, penalties or interest which remain unpaid.

I recommend that a hearing be held for this matter on September 26, 2011.

Sincerely,

Kenton C. Ward, CFM
Hamilton County Surveyor

KCW/grh

Long Branch Drain #331
J.W. Brendel Arm (Was #77)
Combining the J.W. Brendel maintenance fund
into Long Branch since they are the same main drain.
Long Branch rates will be set to match Brendel's rate with the
Residential/Ag rates increased from $1 to $2 per acre.
Brendel will have future assessments made to Long Branch
instead of Brendel.
