Indiana Academic Standards for Health and Wellness:

The programs provided by the Hamilton County Health Department meet the standards for health education in Indiana schools as established by the Indiana Department of Education.

Standard 1: Students will comprehend concepts related to health promotion and disease prevention to enhance health.

Standard 2: Students will analyze the influence of family, peers, culture, media, technology and other factors on health behaviors.

Standard 3: Students will demonstrate the ability to access valid information and products and services to enhance health.

Standard 4: Students will demonstrate the ability to use interpersonal communication skills to enhance health and avoid or reduce health risks.

Standard 5: Students will demonstrate the ability to use decision-making skills to enhance health.

Standard 6: Students will demonstrate the ability to use goal-setting skills to enhance health.

Standard 7: Students will demonstrate the ability to practice health-enhancing behaviors and avoid or reduce health risks.

Standard 8: Students will demonstrate the ability to advocate for personal, family and community health.

If you would like to schedule a program for your group, community or school, contact the Hamilton County Health Department at e-mail james.ginder@hamiltoncounty.in.gov

The Health Education Division has the right to cancel or reschedule the presentation.
