**Re: Williams Creek Drainage Area, Spring Mill Run Drain, The Estates at Towne Meadow Arm**

Attached is a petition by PLP UHS Properties LLC, along with a non-enforcement request, plans, calculations, quantity summary and assessment roll for The Estates at Towne Meadow Arm, Williams Creek Drain located in Clay Township. I have reviewed the submittals and have found each to be in proper form.

I have made a personal inspection of the land described in the petition. Upon doing so, I believe that the drain is practicable, will improve the public health, benefit a public highway, and be of public utility and that the costs, damages and expenses of the proposed drain will probably be less than the benefits accruing to the owners of land likely to be benefited. The drain will consist of the following.

12" RCP	1,016 LF	30" RCP	735 LF
15" RCP	1,921 LF	36" RCP	178 LF
18" RCP	843 LF	6" SSD	4,425 LF
21" RCP	410 LF		
24" RCP	484 LF		

The total length of the drain will be 10,112 feet.

This project will reconstruct a portion of the Spring Mill Run Drain – University High School Arm (2002). The existing open ditch will flow through the new developments detentions ponds

constructed in Common Areas "2" and "3". The construction through the development will enclose 89 feet of existing open ditch with dual 36" RCP pipes between Structure 624 and 623. It will remove 23' of 12" plastic pipe at existing Structure B1 and extend the existing 24" RCP at existing Structure 27 by an additional 26 feet. These changes are outlined on the plans on Sheet C2.3 and detailed on Sheet C6.6.

The site is split by the Spring Mill Run Regulated Drain which runs through the property from the north to south. The Three (3) detention basins located in Common Area C.A. "B" will be considered part of the regulated drain. Basin maintenance assumed by the Drainage Board shall only include the inlets and outlet as part of the regulated drain. The maintenance of the detention basins such as sediment removal and erosion control along the banks, mowing, aquatic vegetation maintenance control, and anything required per the Storm Water Quality Maintenance and Operations Manual will be the responsibility of the Homeowners Association. The Board will also retain jurisdiction for ensuring the storage volume for which the pond was designed will be retained. Thereby, allowing no fill or easement encroachments.

The subsurface drains (SSD) under curbs in the Estates at Towne Meadows are not to be part of the regulated drain due to the requirement of street trees by the City of Carmel. The subsurface drains (SSD) to be part of the regulated drain are those main lines in front/rear yards, and those in common areas. Only the main SSD lines as described below, which are located within these areas are to be maintained as regulated drain. Laterals for individual lots will not be considered part of the regulated drain. The portions of the SSD which will be regulated and maintained are as follows:

Front/Rear Yard SSD:

Side Yard Lot 1 from Str. 604 North to SSD Riser  
Rear Yard Lots 1-3 from Str. 604 West to Str. 604A  
Rear Lot 3 from Str. 604A West to SSD Riser  
Common Area "F" from Str. 608 West to SSD Riser  
Rear Yard Lot 4 from Str. 605 East to SSD Riser  
Rear Yard Lots 5-6 from Str. 605 West to SSD Riser  
Rear Yard Lots 41-44 from Str. 617 to Str. 609  
Rear Yard Lots 39-40 from Str. 618 to Str. 617  
Rear Yard Lots 7-11 from SSD Risers to Str. 651  
Rear Yard Lots 37-38 from Str. 601 to Str. 618  
Rear Yard Lots 35-36 from Str. 630 East to SSD Riser  
Rear Yard Lots 33-34 from Str. 630 West to Str. 649  
Rear Yard Lots 31-32 from Str. 649 SW to Str. 648  
Rear Yard Lots 27-30 from Str. 640 North to Str. 648  
Rear Yard Lot 17 from Str. 634 West to SSD Riser  
Rear Yard Lots 18-20 from Str. 634 East to Str. 635  
Rear Yard Lot 21 from Str. 635 East to SSD Riser  
Rear Yard Lots 25-26 from Str. 644 West to SSD Riser  
Rear Yard Lots 22-24 from Str. 644 East to Str. 645

The plans for The Estates at Towne Meadow show 11 BMP storm structures with sumps and snouts. The sumps will be maintained as part of the regulated drain facilities and cleaned annually or as needed after the drainage facilities are accepted as part of the County's regulated drain system. Those structures are as follows: Str. 603, Str. 606, Str. 611, 616, Str. 621, Str. 626, Str. 629, Str. 633, Str. 636, Str. 639 and Str. 643.

I have reviewed the plans and believe the drain will benefit each lot equally. Therefore, I recommend each lot be assessed equally. I also believe that no damages will result to landowners by the construction of this drain. The area is assessed for the Williams Creek Drainage shed at this time. The current rates are as follows: \$65.00 per lot, \$10.00 per acre for common areas, with \$65.00 minimum, and \$10.00 per acre for roadways. With this assessment the total annual assessment for this drain will be \$3,499.70.

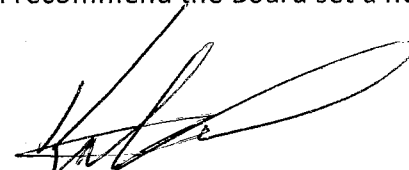

In accordance with IC 36-7-4-709, the petitioner did not submit surety for the proposed drain prior to construction commencing. If the petitioner/developer wants to submit final secondary plat for recording prior to the final inspection and approved as-built drawings, a bond will be required at that time.

I believe this proposed drain meets the requirements for Urban Drain Classification as set out in IC 36-9-27-67 to 69. Therefore, the drain shall be designated as an Urban Drain.

Attached is an easement (Recorder's Office Instrument #2020005589) granted by University High School of Indiana, Inc. conveying to the Board of Commissioners of Hamilton County a non-exclusive perpetual easement through, upon, over, along and across parcel 17-13-05-00-003.000. The easement is granted for providing overland or subsurface paths and courses for the construction, maintenance and preservation of storm drainage facilities which are part of this proposed regulated drain.

I recommend upon approval of the above proposed drain that the Board also approve the attached non-enforcement request. The request will be for the reduction of the regulated drain easement to those easement widths as shown on the secondary plat for The Estates at Towne Meadow as recorded in the office of the Hamilton County Recorder.

I recommend the Board set a hearing for this proposed drain for April 27, 2020.

**Williams Creek Drainage Area, Spring Mill Run Arm**

The Estates at Towne Meadow Arm SUBNE-2019-00004

Will add 10,112' of tile drain for the subdivision. The SSD's under curb won't be regulated due to Carmel's requirements of street trees.

Changes to Spring Mill Run, University High School Arm are:

Will remove 89' of existing open ditch between Str. 624 & 623 when replaced with subdivision tile.

Will remove 23' of 12" plastic pipe at existing Str. B1. Will add 26' of 24" RCP extended from existing Str. 27.

The new tile system will be 10,112'. This proposal will add 10,026' to the overall footage.

An easement from University High School has been granted for construction, maintenance & preservation of this drainage system. Hearing: April 27, 2020

COUNTY OF HAMILTON )

BEFORE THE HAMILTON COUNTY DRAINAGE BOARD

At the request of PLP UHS Properties LLC The Hamilton County Drainage Board considered the extent of the drainage easement on the Spring Mill Run Drain in the Estates at Towne Meadow Subdivision. Upon the agreement in writing by the recorded owner(s) of land involved that such owner(s) agree and covenants that neither the Hamilton County Drainage Board nor any Contractor nor Workman operating under the authority of said Board will be held liable for any damages resulting from construction, reconstruction, or maintenance of the above named drain at said location, whether to the real estate or improvements thereon the Board agreed:

- 1. That it will not enforce the easement beyond those shown on the Subdivision plat recorded in Plat Cabinet Slide in the Hamilton County Recorders Office.
2. It will not object to the improvement of said real estate beyond such distance, and
3. Other Conditions:
