To: Hamilton County Drainage Board

Re: Harriet Sheward Drain, Craig Avenue Extension

Attached is a drain map, drainage shed map and schedule of assessments for the extension of the Harriet Sheward Drain. This proposed drain is located in White River Township.

I have made a personal inspection of the land described below. Upon doing so, I believe that the drain is practicable, will improve the public health, benefit a public highway and be of public utility and that the costs, damages and expenses of the proposed drain will probably be less than the benefits accruing to the owners of land likely to be benefited. The drain will consist of the following:

Open Ditch 88 ft.

The total length of the drain will be 88 feet.

The extension will begin at the existing east right of way line of Craig Avenue and extend across to the west right of way line of Craig Avenue following the existing open ditch.

The current rates for the Harriet Sheward Drain are \$10.00 per acre for roads. The annual maintenance collection for this extension will be \$51.60.

The nature of maintenance work required is as follows:

1. Bank erosion protection and/or seeding as might be required;
2. Removal of debris and/or blockages from existing open drain;
3. Removal of beaver dams;
4. Any other repairs necessary to restore proper flow to the open ditch.

The frequency with which maintenance work should be performed is annually as required by the condition of the drain.

The easements for the drain should be set at 75' from top of bank as set out in IC 36-9-27-33.

I recommend that the Board set a hearing for this proposal for June 22, 2020.

Sincerely,

Kenton C. Ward, CFM
Hamilton County Surveyor

KCW/pll

Harriet Sheward Drain #105

Craig Avenue Extension

*No cost for extension. Adding footage only.

Will add 5.16 acres to the existing maintenance assessment for the 88' of open ditch.

Hearing: 06/22/2020
