A. AREAS OF GREATEST NEED

Provide summary needs data identifying the geographic areas of greatest need in the grantee’s jurisdiction.

Response:

Hamilton County, Indiana, has received \$2,343,868 in a special allocation of Community Development Block Grant (CDBG) funds as part of the Neighborhood Stabilization Program developed by U.S. Department of Housing and Urban Development (HUD) to provide targeted emergency assistance to help stabilize neighborhoods and stem the decline of house values of neighboring homes. Hamilton County has been particularly hard hit. According to data provided by the Hamilton County sheriff’s office there were 975 foreclosures in 2007 and in the first nine months of 2008 there are 1,210 foreclosures. This represents a 57% increase in one year.

*Data provide by the Hamilton County Sheriff's office
** 2008 data through 9/30/08

There are 72 block groups in Hamilton County. All but 14 have a foreclosure rate of less than 1%. Only one, block group 11010.03 has a foreclosure rate over 4% in 2008. Of the remaining 13, two had foreclosure rates between 2 and 3% and the remaining nine were less than 2%. The census tracts with the highest rates, as well as the highest numbers, were in Noblesville and Fishers, though certain areas of Carmel had a significant number of foreclosures as well.

Table 2 shows the 2007 and 2008 foreclosures by community address. Noblesville, Atlanta and Sheridan have the highest percentage of foreclosed properties in Hamilton County. While Hamilton County can spend NSP funding in Noblesville; the communities of Atlanta, Sheridan and Arcadia will need to pursue state of Indiana NSP funding.

Table 3 illustrates not only the tremendous number of new housing units constructed over the past eight years in Hamilton County but also demonstrates the drastic reduction in the number of units being built over the past few years. The sheer number of foreclosures in past few years have impacted the market and prevented builders from constructing new housing in an area that continues to grow in population.

As demonstrated in the above map and tables, the foreclosures in Hamilton County are widely dispersed across the southern half of Hamilton County roughly in the form of a triangle or half circle. With this broad dispersion across many neighborhoods and most communities it is imperative that the county provide access to NSP funds to communities most impacted by the foreclosure crisis. Noblesville has experienced 821 foreclosures or 7.25% of the total housing stock in the past two years. Carmel, Fishers and Westfield have experienced 294 units (2.08%), 455 units (2.99%) and 214 units (5.93%) respectively. This accounts for almost 1,800 units, or 83.5% of all foreclosures in Hamilton County in the past two years.

Sheridan, Atlanta and Arcadia have also experienced significant foreclosure rates. Sheridan has experienced 74 foreclosures, or 7.49% of their total housing stock. Areas surrounding these communities in Adams and Jackson township have also experienced distress. Since these communities are not participating in the Hamilton County CDBG program the county recommends that they participate in the state of Indiana NSP program however, the county will serve the townships outside of the municipal boundaries.

HUD has provided an estimated foreclosure risk factor¹ to assist jurisdictions in determining the areas of greatest need. HUD provided scores from one to ten with one being the lowest risk and ten being the highest risk. These scores as well as the other factors HUD used to determine need can be found in Attachment A, "Hamilton County Neighborhood Stabilization Program-Census Data". The older sections of Noblesville was found to have the highest risk then the risk dropped dramatically. This also held true for the predicted 18 month foreclosure rate and the highest percentage of homes financed by sub-prime mortgages.

Based upon the above information as well as data provided by HUD, the county will target NSP funds as shown in "Attachment B". Attachment B shows the census tracts and block groups that have been identified as high medium and low priorities. The factors that went into considering our priority areas are areas of greatest percentage of foreclosures, the areas with the greatest percentage of foreclosures, the areas with the highest percentage of homes financed by a subprime mortgage related loan, and identified by the grantee as likely to face a significant rise in the rate of home foreclosures as identified in the data in Attachment A. The county expects to expend approximately 60% of available funding in High priority area, 40% of available NSP funds in Medium Priority area and no funding in low priority areas. These high and Medium Priority areas do not include the entire county. Areas that were considered low priority can be found in the communities of Carmel, Fishers and Noblesville and the townships of Clay, Delaware and Wayne.

B. DISTRIBUTION AND USES OF FUNDS

Provide a narrative describing how the distribution and uses of the grantee's NSP funds will meet the requirements of Section 2301(c)(2) of HERA that funds be distributed to the areas of greatest need, including those with the greatest percentage of home foreclosures, with the highest percentage of homes financed by a subprime mortgage related loan, and identified by the grantee as likely to face a significant rise in the rate of home foreclosures. *Note:* The grantee's narrative must address these three stipulated need categories in the NSP statute, but the grantee may also consider other need categories.

Response:

The county will distribute NSP funds to the areas of greatest need, including those with the greatest percentage of home foreclosures, with the highest percentage of homes financed with sub-prime mortgage loans, identified by the county as likely to face a significant rise in the rate of home foreclosures, and areas with high foreclosure rates based on data from the Hamilton County Sheriff's office. Accordingly, the county will meet the requirements set forth in section 2301(c)(2) of HERA when expending NSP funds. As reference, staff considered the following criteria in assessing areas of distress.

¹ HUD developed its risk score using factors that include decline in home values, unemployment rates, rate of high cost loans (i.e. interest rates 3 percentage points above the Treasury rate), foreclosure start rates, and vacant property rates (using U.S. Postal Service reports of homes that are vacant for over 90 days).

They looked at census tracts that had an estimated foreclosure/abandonment risk score of at least 4, a HMDA hi-cost loan rate of at least 15%, an 18 month underlying problem foreclosure rate of at least 3% and a USPS vacancy rate of at least 3%. These criteria were selected and combined with data collected locally through the county and other sources.

As discussed in Section A, old Noblesville (census tracts 110700, 110600 and 110504) generally is the most distressed area using the indicators discussed above. The HUD data also indicates that Arcadia, Atlanta and Sheridan also exhibit distressed conditions. In addition, many areas in Fishers, Carmel, Westfield and Cicero exhibited significant distress factors. Attachment B shows the priority rating for each Census Tract/Block Group in Hamilton County. Areas that were considered low priority can be found in the communities of Carmel, Fishers and Noblesville and the townships of Clay, Delaware and Wayne.

Most of the activities eligible under the NSP represent a subset of the eligible activities under the traditional CDBG program. Certain CDBG eligible activities correlate to specific NSP activities and vice versa. The County will ensure that 100% of the NSP funds will be used to benefit individuals and households with incomes below 120% of the area median income (AMI). In addition, at least 25% of the NSP funds will be used to benefit individuals and families earning less than 50% of the area median income.

Hamilton County developed specific housing programs to benefit very low (households of less than 50% of AMI, and the low, moderate, and middle income (households between 51 and 120% of AMI). Section G, Information by Activity, gives additional detail on each of the proposed NSP activities.

C. DEFINITIONS AND DESCRIPTIONS

(1) Definition of “blighted structure” in context of state or local law.

Response:

Blighted structures — The County will rely upon Indiana Code IC 36-7-9-4.5 in order to determine blight. A blighted structure will include, but is not limited to the following:

- a. Vacant structures often become dilapidated because the structures are not maintained and repaired by the owners or persons in control of the structures.
- b. Vacant structures that attract children, become harborage for vermin, serve as temporary abodes for vagrants and criminals, and are likely to be damaged by vandals or set ablaze by arsonists.
- c. Unkept grounds surrounding vacant structures invite dumping of garbage, trash, and other debris.
- d. Vacant, deteriorated structures contribute to blight, cause a decrease in property values, and discourage neighbors from making improvements to properties.
- e. Structures that remain boarded up for an extended period of time also exert a blighting influence and contribute to the decline of the neighborhood by decreasing property values, discouraging persons from moving into the neighborhood, and

encouraging persons to move out of the neighborhood.

Other definitions:

Abandoned property — a property in which the mortgage or tax foreclosure process has been initiated for the property and no mortgage or tax payments have been made in 90 days and the property has been vacant for 90 days.

Current market appraised value — the value of a foreclosed home established through an appraisal made in conformity with the requirements of the URA (at 49 CFR 24.103) and complete within 60 days prior to an offer to purchase.

Foreclosed property — a property that is at the point, as defined by state or local law, where the mortgage or the tax foreclosure is complete and the title for the property has been transferred under a foreclosure proceeding or a transfer in lieu of foreclosure.

(2) Definition of “affordable rents.” *Note: Grantees may use the definition they have adopted for their CDBG program but should review their existing definition to ensure compliance with NSP program –specific requirements such as continued affordability.*

Response:

The NSP will follow the FY09 Fair Market Rents (FMR) for Hamilton County, Indiana

The following table shows the Final FY 2009 FMRs by unit bedrooms. The FMRs for units with different numbers of bedrooms are computed from the ratio of the 2005 Revised Final FMRs (based on 2000 Decennial Census Data) for the different unit sizes to the 2005 2-Bedroom Revised Final FMRs. These Rent Ratios are applied to the Final FY 2009 2-Bedroom FMR to determine the Final FY 2009 FMRs for the different size units.

Final FY 2009 FMRs By Unit Bedrooms

	<u>Efficiency</u>	<u>One-Bedroom</u>	<u>Two-Bedroom</u>	<u>Three-Bedroom</u>	<u>Four-Bedroom</u>
Final FY 2009 FMR	\$542	\$627	\$745	\$964	\$1,020

The FMRs for unit sizes larger than four bedrooms are calculated by adding 15 percent to the four bedroom FMR, for each extra bedroom. For example, the FMR for a five bedroom unit is 1.15 times the four bedroom FMR, and the FMR for a six bedroom unit is 1.30 times the four bedroom FMR. FMRs for single-room occupancy units are 0.75 times the zero bedroom (efficiency) FMR.

Periods of affordability

The NSP assisted units will follow the HOME regulations regarding the period of affordability.

The following affordability periods apply to ALL NSP funded projects, including rental and homebuyer housing:

Amount of NSP subsidy per unit	Affordability Period
Under \$15,000 per unit	5 years
\$15,000 - \$40,000 per unit	10 years
Over \$40,000 per unit – or – any rehabilitation/refinance combination activity	15 years
New Construction or acquisition of newly constructed permanent rental housing	20 years

For rental properties, the NSP assisted units must remain affordable for no less than the applicable period specified in the above table. The affordability requirements apply without regard to the term of any loan or mortgage or the transfer of ownership.

(3) Describe how the grantee will ensure continued affordability for NSP assisted housing.

Response:

The length of the affordability period will be based on the amount of assistance received.

If the assistance is less than \$15,000 per unit, the affordability period will be five (5) years. If the assistance is \$15,000 to \$40,000, the affordability period will be ten (10) years. If the assistance is over \$40,000, the affordability period will be twenty (20) years.

The affordability requirements will be monitored through annual monitoring and enforced through deed restrictions.

(4) Describe housing rehabilitation standards that will apply to NSP assisted activities.

Response:

As a result of the financial assistance under this program, and before other types of improvements may be made, any area or system of the house where NSP funds are spent must be raised to meet the State of Indiana Rehabilitation Standards.

D. LOW INCOME TARGETING

Identify the estimated amount of funds appropriated or otherwise made available under the NSP to be used to purchase and redevelop abandoned or foreclosed upon homes or residential properties for housing individuals or families whose incomes do not exceed 50 percent of area median income: \$585,967.

Note: At least 25% of funds must be used for housing individuals and families whose incomes do not exceed 50 percent of area median income.

Response:

The county intends to expend at least 25% or \$585,967 of its NSP funds to provide affordable housing, as well as to purchase and redevelop abandoned or foreclosed residential homes or properties to house individuals or families with incomes up to 50% of the AMI.

E. ACQUISITIONS & RELOCATION

Indicate whether grantee intends to demolish or convert any low- and moderate-income dwelling units (i.e., ≤ 80% of area median income).

If so, include:

- **The number of low- and moderate-income dwelling units—i.e., ≤ 80% of area median income—reasonably expected to be demolished or converted as a direct result of NSP-assisted activities.**
- **The number of NSP affordable housing units made available to low-, moderate-, and middle-income households—i.e., ≤ 120% of area median income—reasonably expected to be produced by activity and income level as provided for in DRGR, by each NSP activity providing such housing (including a proposed time schedule for commencement and completion).**
- **The number of dwelling units reasonably expected to be made available for households whose income does not exceed 50 percent of area median income.**

Response:

It is not the intent of this program to provide NSP funding to demolish or convert any low and moderate income dwelling units. There is no documentation or evidence that there is a significant amount of foreclosed residential properties in need of demolition. All properties purchased with NSP funds must be vacant at the time of sale and must have been vacant since the foreclosure was finalized.

F. PUBLIC COMMENT

Provide a summary of public comments received to the proposed NSP Substantial Amendment.

Response:

Per the NSP guidelines, a notice of public hearing was published in a newspaper of general circulation. The notice indicated that the 15 day public comment period would commence on November 7, 2008 and end November 22, 2008. As required, the county

posted the proposed NSP Substantial Amendment on the county web-site for 15 days prior to the public hearing, making it available for public review.

- No public comments were received. However, staff recognized an error in the budget for activity 1 (NSP-1). \$35,000 was added back into this activity that staff had initially set aside for a Homebuyer Counseling activity that was rolled in to NSP-1. This activity is now correctly budgeted in the amount of \$1,298,515.

- Available to **owner-occupied home buyers** (no investors).
- Hamilton County will coordinate with lenders, mortgage servicers, Fannie Mae, Freddie Mac, and HUD to identify foreclosed properties. Lenders will be required to sell the properties listed at a discount. The NSP Federal Register Notice addresses purchase discounts of 5 percent (individual purchase) and 15 percent (aggregate purchases).
- **Hamilton County will offer up to \$30,000 (not to exceed 20 percent of the purchase price) in down payment assistance** (as a second mortgage loan) to buyers who purchase listed homes.
