

Instructions for Using Map Search

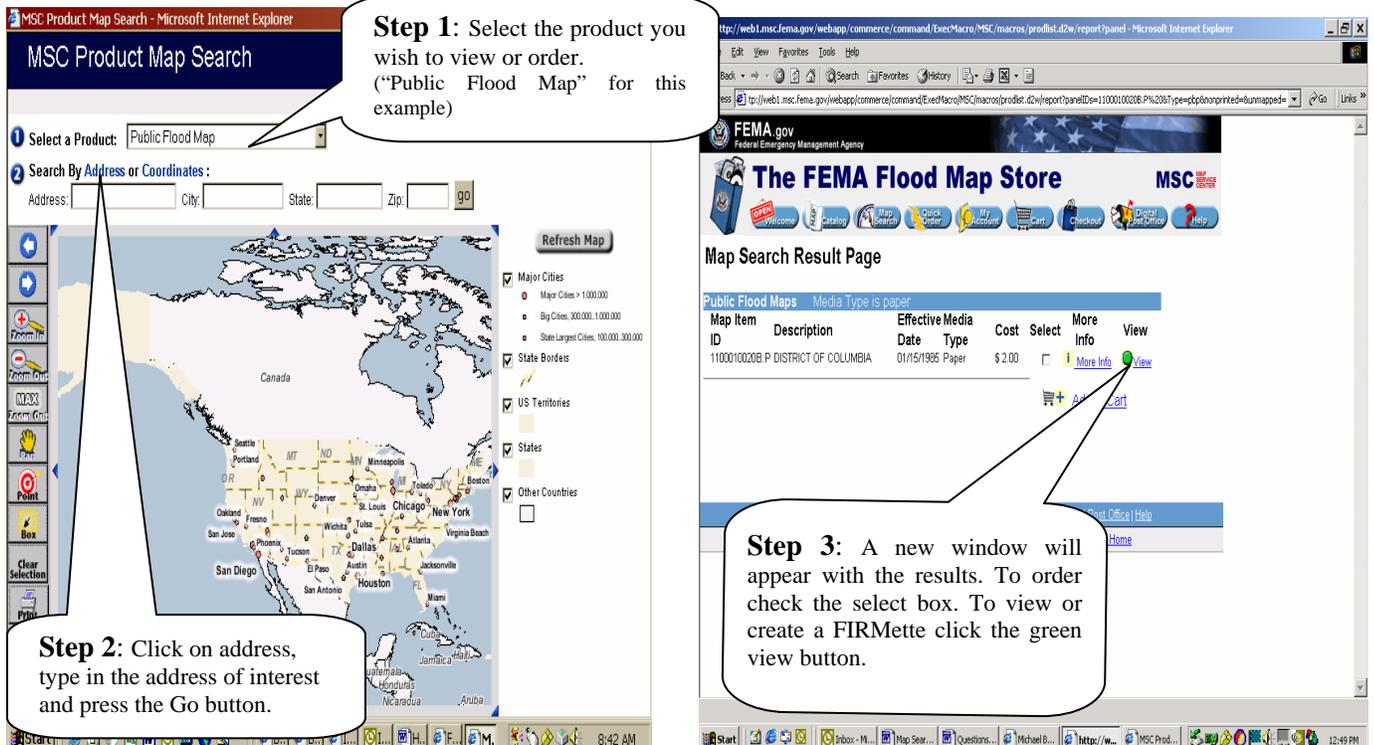

www.store.msc.fema.gov

Map Search allows users to view and select a flood map panel geographically. A specific flood map panel or an area of interest can be located by typing in a street address, coordinates or by using the interactive map. Follow the steps below:

Click "Map Search."

To Select by Address:

Step 1: Select the product you wish to view or order. ("Public Flood Map" for this example)

Step 2: Click on address, type in the address of interest and press the Go button.

Step 3: A new window will appear with the results. To order check the select box. To view or create a FIRMette click the green view button.

To Select by Latitude and Longitude:

MSC Product Map Search

1 Select a Product: Public Flood Map

2 Search By Address or Coordinates:

Address: _____ State: _____

Decimal Degree
Degree Minute Second

Step 1: Specify the type of map product. (For example, choose Public Flood Map.)

Step 2: To search by coordinates, click on coordinates. Two input boxes will then display which allows you to key in the latitude and longitude.

Step 3: Enter the set of coordinate values and click "go" button. Be as precise as you can. (For example, enter 40.82 for latitude and -74.85 for longitude for a place that is located in Warren County, NY.)

MSC Product Map Search

1 Select a Product: Public Flood Map (Paper)

2 Search By Address or Coordinates

Latitude: 40.82 Longitude: -74.85

Refresh Map

Step 3: Enter the set of coordinate values and click "go" button. Be as precise as you can. (For example, enter 40.82 for latitude and -74.85 for longitude for a place that is located in Warren County, NY.)

FEMA 500 C Street, SW Washington, D.C. 20548-0001
866-868-6868

Step 4: A new window will appear that shows the product that falls within the coordinates. You then have the option to buy or view the map.

To Select Products using the Interactive Map:

Use the Point tool  by clicking on a particular point on the map; or use the Box tool  to select a panel/panels. To use the box tool click on a start point, hold down the mouse button, drag diagonally to make a box around the area or desired panel number (map panel numbers are displayed in pink) and release the mouse button. The map panels that intersect the point or fall within the box will be displayed in the Results Page of the Store.

Map Item ID	Description	Effective Date	Media Type	Cost	Select	More Info	View
1100010020B.P.	DISTRICT OF COLUMBIA	01/15/1985	Paper	\$ 2.00	<input type="checkbox"/>	More Info	View

From the Results Page products can be viewed or selected for ordering. Once you are viewing the map a FIRMette can be created.
