Re: Cool Creek Drain -156th Street and Springmill Road Round-a-bout Shed Correction

Upon review of the drainage shed of the Williams Creek and Cool Creek Drains, it has been determined the storm sewer improvement with the new Round-a-bout at 156th Street and Springmill Road has changed the water shed boundaries. An area of 1.12 acres of 156th Street and Springmill Road Right of Way, owned by the City of Westfield, should be moved from the Williams Creek Drain watershed, to the Cool Creek Drain watershed. This will remove \$33.60 from the Williams Creek Road Assessment for the City of Westfield and add \$33.60 to the Cool Creek Road Assessment for the City of Westfield.

I recommend that the Board set a hearing to consider this watershed boundary change for August 24, 2015.
