To: Hamilton County Drainage Board

Re: Stony Creek Drain, William Locke Arm 1 Reconstruction

Attached are a petition, plans, specifications, drain map, drainage-shed map, and schedule of assessments for the reconstruction of the William Locke Arm 1 of the Stony Creek Drain. The William Locke Arm 1 is in need of reconstruction at this time due to its lack of adequate capacity and the drain conditions that have deteriorated beyond the practicality of normal routine maintenance. The drain is listed as number 19 on the 2016 Drain Classification List. The reconstruction was petitioned for on September 18, 2015 by 60% of the landowners within the William Locke Arm 1 Drainage Shed. The petition was presented to the Drainage Board at its meeting of September 28, 2015. (See Hamilton County Drainage Board Minutes Book 16, page 320).

History:

The reconstruction project includes two arms of the overall William Locke Drain. These are identified as Arm No. 1 and Arm No.1 to Arm No.1. Arm No.1 includes the former J.C .Stephenson Drain.

The J.C. Stephenson Drain was constructed in 1880 and consisted of 3,900 feet of ditch with the first 2,108 feet of tile across the lands of J.C. Stephenson and William M. Locke. The March 2, 1880 report does not indicate the size of the tile. The description of the J. C. Stephenson Drain from the March 2, 1880 report indicates that the drain terminated at Station 17+60 which is a point matching the description of Station 0+00 of Arm No.1 to the Locke Ditch.

Arm No.1 to the Locke Ditch was constructed in 1920 and consists of 2,096 feet of 15" tile and 4,164 feet of 22" tile along the alignment of the "the original arm to said Ditch" per the June 13, 1918 Viewers Report. The tile was installed from Station 17+60 to station 80+20 of the "original arm to said Ditch." The report indicates the construction of a 3'x3'x3' concrete box at Station 17+60 to "receive the different tiles at the proper grades" one of which is the J.C. Stephenson Drain. The report indicates the construction of a 3'x3'x3' concrete box at station 38+56 which is the terminus of Arm No. 1 to Arm No.1

in said report. The report does not include the size of tile in the upper 1,760 feet of the "original arm to said Ditch" or J. C. Stephenson Drain.

Arm No.1 to Arm No. 1 was also constructed in 1920 and consists of 977 feet of 8" tile, 523 feet of 10" tile and 3,500 feet of 14" tile per the June 13, 1918 viewers report. The report indicates that this Arm terminates in Arm No.1 at station 38+56 of Arm No.1.

Based on the descriptions of Arm No.1 and the J.C. Stephenson Drain, there is approximately 1,760 feet of the current piping system for which the tile size is not documented. This section was part of the J.C. Stephenson Drain but was not described as being "covered or blind" (tile) in the 1880 report.

On October 3, 1983, the Surveyor informed the Board that the 1,760 feet of the J. C. Stephenson Drain was an arm of the William Locke Drain. (see Hamilton County Drainage Board Minutes Book 1, page 565).

On July 12, 1993 a petition was presented to the Board for the reconstruction of the tile portion of the William Locke Drain Arm. (see Hamilton County Drainage Board Minutes Book 3, page 136). On March 27, 2995 a report dated February 13, 1995 was presented to the Board that indicated that a petition had been received for the reconstruction of the William Locke Drain-Arm #1. The report states that the petition represented144-acres which was 78% of the watershed. (see Hamilton County Drainage Board Minutes Book 4, pages 83-84).

The report proposed a project beginning at Station 0+00 of the William Locke Arm #1 (which was assumed to be the breather in the east r/w of Prairie Baptist Road) to replace the entire length of the J. C. Stephenson Drain. In addition, the tile would be extended north from the south line of Jeanne Flanders parcel 07-08-07-00-00-001.004 to the south right-of-way line of 216th Street. The report indicated that the J. C. Stephenson Drain was an 8-inch tile and inoperable. The project proposed 1,287 of 10" and 2,049 of 12". The report also indicates that regulated drain easement will be added on the Flanders property for the extension of the drain beyond the end of the J. C. Stephenson Drain. The project would increase length of the William Locke from Station 0+00 of the J. C. Stephenson Drain a length of 1,287 feet to the r/w of 216th Street and provide easement over Flanders and Wilson. The project was to begin at the eastern end of the 12" CMP under Prairie Baptist Road and continue north and east along the alignment of the J. C. Stephenson Drain to Station 0+00 at the southern end of the current Flanders property referenced above and then continue as new pipe a distance of 1,287 across the current Flanders property to 216th Street. The pipe replacement described in this report generally agrees with the "covered or blind" (tile) portion of the J. C. Stephenson Drain described in the 1880 report (2,049 feet of new pipe to replace the previously described 2,108 feet of existing pipe).

Station 0+00 of Arm No.1 was described in the June 13, 1918 report to be Station 17+60 of the "original arm"; also being Station 39+0 of the J.C. Stephenson Drain and located 1,300-feet west and 15 feet north of the Northeast Corner of the South Half of the Southeast Quarter of Section 12, Township 19 North, Range 5 East. The point referenced as Station 0+00 of the William Locke Arm #1 in the February 13, 1995 report was approximately Station 0+00 of the "original arm to said Ditch" and approximately Station 17+92 of the J.C. Stephenson Drain. Also, the entire drain as described in the 1880 report was not replaced by the 1995 project. The 1995 project only replaced the tiled portion of the original drain. The

former open portion of the drain west of Prairie Baptist Road (which at present is tiled) was not replaced by the 1995 project.

A public hearing for the reconstruction project was held on March 27, 1995. (See Hamilton County Drainage Board Minutes Book 4, page 82) At that meeting, the new easement for the new portion of the drain would be entirely on the Flanders property with no part of the easement on the adjacent Wilson property.

Bids for the reconstruction project were received on April 24, 1995. (See Hamilton County Drainage Board Minutes Book 4, page 93)

During the August 14, 1995 meeting of the Drainage Board (Hamilton County Drainage Board Minutes Book 4, page 149), it was reported that during construction, it was determined that the pipe design was based on an improperly plotted vertical datum, that the proposed cover cannot be achieved and that the tile cannot be extended to 216th Street as planned. At that time, approximately 1,500 feet had been installed at the design elevations. The report indicates that if the installation had continued, the pipe would have come out of the ground. An additional 500 feet of pipe was installed as a 10-inch instead of the designed 12-inch and at a flatter slope than designed to provide as much cover over the new pipe as possible. The pipe was not extended across Flanders to 216th Street. The project replaced the tiled portion of the existing J. C. Stephenson Drain Station 0+000 which is located at the south line of Flanders Tract 07-08-07-00-00-001.004, but did not increase the overall length of the Arm No.1 as proposed.

A report to the Drainage Board dated May 16, 1996 (see Hamilton County Drainage Board Minutes Book 4, page 247) indicates that the construction of the 1995 project is complete. The report indicates that the final project consisted of 1714 of 12" tile and 335 of 10" and ended at the Flanders south line near the original Station 0+00 of the J. C. Stephenson Drain. The report indicates that the new tile was installed approximately 3-feet west of the old tile. This report also recommends that the Board consider the project complete. The report also indicates that reconstruction of the existing tile "west" of Prairie Baptist Road was explored. The report notes that the pipe was a 10-inch tile that connected to a junction box approximately 1,450 west of the Prairie Baptist Road. This is the first mention in the record of the open ditch portion of the J. C. Stephenson Drain being tiled. There is a GASB-34 Footages for Historical Cost Drain Length Log that includes this 1,760-LF of 10" tile. The described junction box agrees with the description of the 3'x3'x3' concrete box installed with the original Arm No. 1 project in 1920.

Current Condition of the Drain:

In a July 2010 report for the reconstruction of the William Locke Arm of Stony Creek, the William Locke Arm 1 is identified as a 24-inch pipe that was corroded and submerged in sediment causing water to back up in the tile and allowing water to pond in the farm fields resulting in crop damage. With the 2011 Stony Creek Reconstruction which included the William Locke Drain, the outlet of the Arm No. 1 to the Locke Drain is no longer submerged in sediment.

The drain functions but is undersized and a majority of the properties served by the drain have standing water issues that affect crop production.

Based on a search of the County's database for drainage complaints from the date of this report to January 1, 1920, there have been forty-four (44) drainage complaints logged in to the County's database for such complaints since April 5, 2000 for the existing William Locke Drain Arm No. 1 and the William Locke Arm No. 1 of Arm No. 1.

Proposed Project:

The proposed pipe was designed for agricultural drainage of the watershed served by the new pipe with a Drainage Coefficient (rate of removal of water in a 24-hour period, in inches) of 3/8". The size and slope of the pipe was governed by the elevation of the existing Locke Ditch at the outfall, available cover over the pipe along the existing pipe alignment and the flow rate determined using the Drainage Coefficient.

The reconstruction project will consist of the following:1,058-LF of 10" HDPE pipe; 1,153-LF of 12" HDPE pipe; 621-LF of 15" HDPE pipe; 3,555-LF of 18" HDPE pipe; 4,642-LF of 24" HDPE pipe; 4,743-LF of 30" HDPE pipe; 72-LF of 18" RCP pipe; 36-LF of 24" RCP pipe; 90-LF of 30" RCP pipe; 2, 48" diameter manholes; 1, 60" diameter manhole; 9 breathers; various ancillary pipe fittings and reducers; demolition and clearing; pavement removal and repair where the drain crosses the various roadways; fence removal and repair; rip-rap armorment at the outfall to the Locke Ditch and seeding of the disturbed non-farmed areas.

After the project is complete, the total length of the drain would be 15,969.92-LF. The total length of the current drain per the GASB-34 records is 15,069-LF. These lengths represent Arm 1 and Arm1 of Arm 1.

Any excess soil material generated from the installation of the new pipe shall be spread within the limits of the existing easement so as not to negatively affect the existing surface drainage flow.

Cost estimate:

Line Item	Quantity	Unit	Unit Cost	Total Cost
10" HDPE (0-5' Deep)	1058	LF	$14.90	$15,759.77
12" HDPE (6-10' Deep)	1153	LF	$35.81	$41,288.33
15" HDPE (6-10' Deep)	621	LF	$40.52	$25,162.92
18" HDPE (0-5' Deep)	1143	LF	$26.88	$30,719.76
18" HDPE (6-10' Deep)	2052	LF	$46.12	$94,646.71
18" HDPE (11-15' Deep)	360	LF	$84.46	$30,405.71
24" HDPE (0-5' Deep)	1412	LF	$39.16	$55,296.53
24" HDPE (6-10' Deep)	3230	LF	$60.00	$193,800.00
30" RCP (0-5' Deep)	54	LF	$61.64	$3,328.47
30" HDPE (6-10' Deep)	4743	LF	$83.67	$396,844.90
18" RCP Under Roadway (6-10' Deep)	72	LF	$132.75	$9,558.21
24" RCP Under Roadway (6-10' Deep)	36	LF	$154.26	$5,553.24
30" RCP Under Roadway (6-10' Deep)	36	LF	$186.46	$6,712.43
30" x 20' CMP with Animal Guard	1	EA	$1,100.00	$1,100.00
48" Manholes	2	EA	$3,600.00	$7,200.00
60" Manhole	1	EA	$4,500.00	$4,500.00
Breathers	9	EA	$500.00	$4,500.00
Clearing	1	LS	$2,500.00	$2,500.00
Existing Manhole Removal	1	EA	$1,500.00	$1,500.00
Fence Enclosure	2	EA	$250.00	$500.00
Fence Repair	4	EA	$2,725.00	$10,900.00
Reducer 15x12	1	EA	$500.00	$500.00
Reducer 18x15	1	EA	$500.00	$500.00

HMA Road Repair	5	EA	$1,000.00	$5,000.00
Seeding	1	LS	$1,000.00	$1,000.00
			Subtotal	$951,776.99
			15% Contingency	$142,766.55
			Total Cost	$1,094,543.54

Stony Creek Drainage Area Maintenance Fund:

The William Locke Arm 1 Drain was combined with the Stony Creek Drainage Area on August 23, 2010. At this time the maintenance fund for the Stony Creek Drainage Area has a balance of $327,774.60. Also, all monies in the William Locke fund (#133) have been expended on the maintenance needs of the drain. In my opinion, the maintenance fund balance for the Stony Creek Drainage Area (#349) is in excess of the amount reasonably needed in that fund for maintenance in the forseeable future. Therefore, I recommend that a portion of this balance be transferred to the reconstruction as allowed in IC 36-9-27-45.5. The amount of the transfer is $100,000.00.

Hamilton County Highway Costs:

As per IC 36-9-27-71, the costs of improvements under Durbin Road, 216th Street and Prairie Baptist Road shall be paid by the Hamilton County Highway. The estimated costs of this work is as follows:

18" RCP	72LF	9,558.21
24" RCP	36LF	5,553.24
30" RCP	36LF	6,712.43
Reset culvert 1 Ea.		$1,000.00
HMA Road Repair		$5,000.00
Sub Total		$27,823.88
15% Contingency		$ 4,173.58
Total Highway Lump Sum		$31,997.46

This lump sum amount does not include the highway's per acre assessment.

Reconstruction Assessment

I have reviewed the drainage shed for the proposed reconstruction of the William Locke Arm 1 Drain. Upon considering each parcel individually I believe that each parcel within the William Locke Arm 1 drainage shed will have equal benefits. There, I recommend each tract be assessed equally. The William Locke Arm 1 Drainage Shed consists of 832.84 acres. The costs to be allocated are as follows:

Engineers Estimate	$1,094,543.54
Hamilton County Highway Lump Sum	$ 31,997.46
Stony Creek Maintenance Fund	$ 100,000.00
Remainder to be spread over drainage shed	$ 962,546.10

The per acre rate for the reconstruction shall be $1,155.74.

I believe that no damages will result to landowners by the reconstruction of this drain. Therefore, damages for all tracts shall be set at $0.00.

Maintenance Assessments:

The maintenance assessments for the Stony Creek Drainage Shed shall not change due to the proposed reconstruction other than the following:

Jeanne Flanders tract 07-08-07-00-001.004 increase from 51.86 acres to 63.78 acres benefited. Assessment increase from $207.44 to $255.12.

Hamilton County Highway 226th Street increase from 662.57 acres to 663.68 acres benefited. Assessment increase from $6,625.70 to $6,636.80.

Landowner Participation:

A public information meeting was held on March 30, 2016. Notices of the meeting were mailed to the owners of the property through which the existing pipe crosses. The meeting was attended by the following persons: Mr. Jim Flanders, Jr.; Mr. Jim Flanders, Sr.; Mr. Chad Galloway; Mr. Aaron Sheller; and Ms. Sherry Sellers.

Easements:

The drain will be reconstructed in the existing location except for the portion across the Flanders tract number 07-08-07-00-00-001.004. This property will have the tile extended across a portion of the tract. This is the new tile extension from Station 0+00 of the J.C. Stephenson Drain described above. This is the new tile from Station 100+77.69 to Station 111+35.66 as shown on the proposed reconstruction plans. The easement shall be 75 feet on either side of the new tile centerline across this tract. This easement shall not cross onto nor encumber tract 07-08-07-00-00-001.000 owned by Paul E. & Sandra L. Deaton.

Permits:

As this project is a project that will replace an existing pipe with a proposed pipe, no permits are required from IDNR, IDEM, or U.S. Army Corps of Engineers.

I recommend the Board set a hearing for this reconstruction for June 27, 2016.

Kenton C. Ward, CFM
Hamilton County Surveyor

KCW/pll

Stony Creek, Wm. Locke Arm 1 #133 Reconstruction

The Locke was combined w/Stony Crk on 08/23/10 and nows pays to Stony Creek.
This project will use **$100,000.00 of the Stony Crk funds** to offset the reconstruction cost on the Locke.
Tile to be extended onto Flanders parcel 07-08-07-00-00-001.004 & will add 11.92 Ac to the existing 19.86 Ac assessed to make 31.78 acres assessed to the Locke Arm. The County Highway will also have 1.11 acres added to the existing 31.29 to make 32.40 assessed to the Locke Arm. The revised Locke Arm 1 shed will have 832.84 acres.
The County Hwy will pay a **lump sum of $31,997.46** for road work in addition to paying **$1,155.74 per acre** as part of the shed.
*No change in current maintenance assessment. Except 07-08-07-00-00-001.004-Flanders & County Highway.
Hearing: 06/27/16 Cost Estimate = **$1,094,543.54.**

Hamilton Co. Highway Lump Sum:

OFFICE OF HAMILTON COUNTY SURVEYOR

To: Hamilton County Drainage Board

Re: In the matter of the Arm 1 of the William Locke Drain Petition

Comes now the undersigned individuals, who petition the Hamilton County Drainage Board, per IC 36-9-27, for the reconstruction of the above referenced regulated drain. The undersigned believe the following:

1. They are owners of ten percent (10%) in acreage or more of land area alleged by the petition to be affected by the drain.
2. That as property owners within the drainage shed, they are qualified petitioners.
3. That they now desire that a regulated drain be reconstructed in Wayne Township.
4. The names ad address of each owner affected by the proposed public drainage are attached hereto, made a part hereof, and marked Exhibit "A", which area of land involved in the proposed drainage area is located in section 13, township 19 north, range 5 east, Hamilton County, Indiana.
5. That the proposed reconstruction consists of Replacing the existing tile drain from it's outlet north to 216th Street. Also review 14" and 15" tile drains feeding into the 22" from the west and east respectively.
6. That in the opinion of the Petitioner, the costs, damages, and expenses of the proposed improvement will be less than the benefits which will result to the owners of the land to be benefited thereby.
7. That in the opinion of the Petitioner, the proposed improvement will improve the public health; benefit a public highway; and be of public utility.
8. That Petitioners shall pay the cost of notice and all legal costs including engineering expense if the petition is dismissed.
9. Petitioners shall post a bond, if required, to pay the cost of notice and all legal costs in the case the improvement is not established.
