Re: Cool Creek Drain – Springmill Villages Arm, 156th Street & Springmill Road – Roundabout

Attached are petition, plans, and other information for the proposed reconstruction of the Cool Creek Drain – Springmill Villages Arm, for the 156<sup>th</sup> Street and Springmill Road Roundabout project. The reconstruction was petitioned by the City of Westfield. During this reconstruction, the Cool Creek Drain – The Crossings – Section 1B Arm or the Springmill Villages Arm will be affected. Those changes are as follows:

**Cool Creek Drain**

Cool Creek Drain – The Crossings Section 1B Arm to the Springmill Villages Arm: The project will remove 203 feet of 12” RCP from Str. 139 running west to Str. 140 and moving Str. 130 east 10 feet, by removing 10 feet of 12” RCP. This is shown on Sheets 9 and 16 of the plans prepared by A&F Engineering, Inc., having contract number 36438, project number 1173468 and dated April 28, 2014.

The road project will remove 213 feet of the Cool Creek Drain, The Crossings Section 1B Arm of the Springmill Villages Arm.

The cost of the reconstruction is to be paid by the City of Westfield.

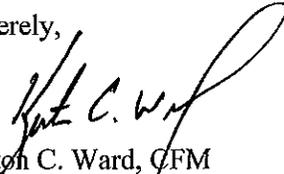

Since the petitioner is the City of Westfield and is being performed under public bid process, no bond is required for the relocation/reconstruction work.

The parcels affected by this project are as follows:
